

PROPOSED SCHEDULE OF FEES & CHARGES 2026/27

STATEMENT OF PROPOSAL FEES & CHARGES 2026/27

Council's Schedule of Fees and Charges sets out the various fees and charges across Council activities and services.

Fees and charges for 2026/27 have mostly increased from the previous year by an inflationary adjustment. There are also some new fees proposed which are summarised below.

You can see all proposed changes in the Proposed Schedule of Fees & Charges 2026/27 document. A copy of the Proposed Schedule of Fees & Charges 2026/27 is also available to read online. Scan the QR code below or visit at www.cluthadc.govt.nz/annual-plan.

A hardcopy is also available at your local Clutha Community Library and the Clutha isite Visitor Information Centre for your review.

SUMMARY OF PROPOSED CHANGES

ADDITIONS

Credit Card Surcharge (Page 2): A credit card surcharge fee of 2% has been added to offset transactional costs incurred by Council. This was missed from previous Fees and Charges.

Processing Charge Out Rates (Section 2.2): This provides cost-recovery transparency in charge-out Building Control Office (BCO) rates when processing fees are above the minimum deposit.

Project Information Memorandum (PIM) for Detached Minor Residential Units (Granny Flats) (Section 2.3): This fee recovers costs when issuing a PIM, required under the new National Environmental Standard for detached minor residential units up to 70m², placed on a site without a Resource Consent and Building Consent, as long as it meets statutory requirements.

GIS Mapping (Section 11) RAPID number sign: This fee has been previously charged but not included in the Schedule of Fees and Charges.

Resource Consent Application (Section 22) Fast Track Pre-Application: This is a cost recovery charge to reflect the time taken to process these types of consents.

Roading Permits (Section 23) – Corridor Access Request (CAR): The New Zealand Guide to Temporary Traffic Management (NZGTTM) requires an in-depth risk assessment for each application and the cost of this needs to be recovered.

Roading Permits (Section 23) – Temporary Road Closure Events: This charge will recover administration costs associated with Temporary Road Closure Event permits.

Roading Permits (Section 23) - Inspection of non-approved traffic management methodology/non confirmative worksite: This fee seeks to increase contractor compliance.

Pump Failure Fee (Section 25.4): This fee is for properties with boundary boxes or household sewer pumps in Benhar and Tokoiti townships and will recover costs for staff callouts, time taken to remediate the pump and any reinstatement required as a result of third-party damage. Actual costs can include replacement parts, pump replacement and/or other works required such as removal of foreign objects and/or misuse have blocked and/or damaged the pump. Previously this work was done without charge.

Pipe Locations (Sections 25.5, 34.4, 35.3): This fee recovers costs associated with pipe location requests (urban and rural water, wastewater and stormwater) based on the resources required to provide the service.

Sportsgrounds - Special Charges (Section 26.1): Future fees and charges will be determined for each defined area or field regardless of the activity, except for:

Circus and similar type activities and;

Discounted rates for multiple area combinations.

Previously, a major sports tournament charged \$30 per day, while a casual sport hire and event hire cost \$82 and \$120 per day respectively and there was no distinction between individual or multiple area combinations. This charge reflects fair costings for these services.

Additional Wheelie Bins (Section 32.2): This charge makes provision for residents to apply for an additional recycling or wheelie bin on top of their mandatory pair if they are on collection rates. It is proposed that the fee for this should be charged at half of the kerbside rate.

Beaumont Skip Key (Section 32.3): This fee supports arrangements made for Beaumont residents to access a local skip. A transition arrangement will include replacement of existing locks, following which residents can apply for a new key to access the skip.

Out of District Water Rates (Section 34.3): These rates have been updated based on the calculation of the proposed Rural Water Scheme Assistance Capping model of 20%. Please see the Annual Plan 2026/27 Consultation Document for further information.

Urban Water Connection Fees (Section 35.1): In March 2022, Council decided there should be an additional contribution of \$1,630 over and above the Milton water financial contribution for the Milton to Tokoiti extension. This was missed from previous Fees and Charges.

Three Waters Approved Contracting (Section 37): These fees are administrative costs for Council's approved/permitted contractors working on network infrastructure (stormwater, wastewater and water). Contractor approval applies to the installation, repair and renewal work only.

FEES REMOVED

Equipment Hire (Section 7): This has been removed as it is no longer in demand or required.

Hairdressing (Section 12): This associated regulation has been removed by central government.

FEE INCREASES ABOVE INFLATION

Building Consent Fees (Section 2): Outside of a few exceptions below and those set by statute these have been increased by 15%. This is to allow this function of council to meet budgeted revenue amounts.

Property File Request (Section 2.4.7): The structure of this fee has been changed to better reflect the actual work needed.

Council Community Housing (Section 6): This has been increased by 6% as per the LTP 24/34 consultation.

CDC Administration Fee (Section 8): This now better reflects the amount of work required (Minimum fee being one hour).

Statement of Compliance (Section 8.1): This now better reflects the amount of work required (Minimum fee being one hour).

Food Business Levy/Collection Fee For MPI Food Business Levy (Section 8.1): The food levies are set by the government, and they have been increased for 2026.

Noise Control (Section 17) - Issue/Breach Of Excessive Noise Direction: These fees have been increased to meet the updated Resource Management Act (RMA) infringement fees.

Roading Permits (Section 23) - Commercial Traffic Management Plan (TMP): This increase reflects the extra time required to process TMP's under the New Zealand guide to temporary traffic management.

Roading Permits (Section 23) - Traffic Management Plan Priority Processing Fee: This should be double the Commercial Traffic Management Plan rate.

Roading Permits (Section 23) - Global Traffic Management Plans (GTMP): The \$680 fee reflects the time taken to process the TMP as well as factoring in that a GTMP would usually have multiple Corridor Access Request (CAR) applications lodged against it and thus there was an ongoing processing component.

Pre-treated Bulk Sewage Disposal Fee (Section 25.3.1): Increase in bulk sewage disposal fee reflects the annual urban sewer charge, divided by 366. The fee has missed review previously which is why there is a significant uplift proposed.

Trade Waste Wastewater Flow Charge (Section 29): This has been increased to match 80% of the current proposed 26/27 wastewater rate divided by 366.

Mt Cooe Landfill (Section 32.2) - LPG Cylinders: This has been increased to meet the actual costs the contractor charges Council.

Mt Cooe Landfill (Section 32.2) - Tyres: This has been updated to reflect the 5 free tyres available through the Tyrewise scheme council is a part of.

E Waste recycling Price List (Section 32.4) - Batteries: This has been updated to note the free battery recycling the council is offering as funded by the Waste Levy in partnership with Phoenix Recycling Group.

Water used over 366 m³/year (Section 35.2): This has been increased to match the current proposed urban water rate for 26/27. The fee has missed review previously which is why there is a significant uplift proposed.

Class 2 – Restaurants that have a separate bar (which may include a small bar area) but which do not operate that area in the nature of a tavern at any time.

Class 3 – Restaurants that only serve alcohol to the table and do not have a separate bar area.

24.5 Clubs:

Class 1 – large clubs (with 1,000 or more members of drinking age) and which, operate in the nature of a tavern (e.g. a large working men's club, combined clubs, or large 'cossie' clubs).

Class 2 – clubs which do not fit Class 1 or Class 3 definitions (e.g. larger sports clubs, medium sized RSA's, many provincial social clubs).

Class 3 – small clubs (with up to 250 members of drinking age) and which operate a bar for 40 hours or less per week (e.g. small sports clubs like bowling clubs, golf clubs, bridge clubs, and small RSA's).

Enforcement – has the same meaning as a "Holding" under Section 288 of the Sale and Supply of Alcohol Act 2012, or a previous offence for which a holding has been issued if the offence occurred before 18 December 2013.

Local Authority Compliance Certificate (not set by statute) \$350.00

- Licensees are required to obtain this as supporting documentation, demonstrating that the activity they are seeking a licence for complies with the provisions of the District Plan.

25. SEWERAGE

25.1 Sewerage connection fees

Financial Contribution	(see formula below)
Administration Charge – Application Fee	260.00 270.00
Engineering and Installation Costs (plant, labour, materials)	Actual Cost

For a **new single connection inside** the Scheme area, where the property has paid a previous financial contribution, or has been paying a half rate charge for more than the five previous years, the Financial Contribution is not required but the other costs shown are payable. Where the property has been paying a half rate charge for less than the five previous years, the Financial Contribution shown shall be reduced pro-rata, i.e. discounted 20% per year of half rate payment.

The Financial Contribution and other costs shown are payable for **new connections outside** the Scheme area, and **additional connections** inside the Scheme area, where no previous financial contribution or half rate charge has been paid. Where intensification occurs, each self-contained habitable unit is deemed to be a separate connection for fees and rating purposes.

Where extensions have been made to existing schemes, the Financial Contribution for properties served by the extension includes the Financial Contribution for the existing scheme plus a contribution calculated on the basis of the value of the extension itself.

The Basic Development Engineering Inspection Fee is for inspections outside of the property boundary undertaken by ~~Service Delivery Staff~~ **council staff or by its approved contractors** that are not covered under a building consent. The inspection can cover both sewerage and water supply inspections and is for developments up to three additional lots per inspection. Large developments will be charged on a time basis at the consent monitoring staff hourly rate.

25.2 Notes:

All properties connecting to or about to discharge to a public sewer shall complete the application form.

All costs associated with laying and making the connection, reinstating surfaces etc. shall be the responsibility of the applicant. **Work must be completed by an approved contractor.** This includes the costs associated with any required system upgrade.

- Annual charges will be invoiced in the first quarter.
- Excess volume = usage – 366 m³/year.
- There will be no application charges for existing customers. If the activity of the existing customer has changed, customer is required to complete and submit an application.

Examples: The table below shows the categories for the Trade Waste Bylaw with industry examples and examples of likely costs. The different type of consent and categories are volumetric based.

Category	Description	Examples	Charging regime	Example annual charges for existing commercial properties
1	Equivalent to a domestic demand for water use and load	Small Office, Banks	- Wastewater UAC - Application fee for new activities of change of activity or discharge conditions	Covered by UAC
2	Has higher water use than a domestic demand but with a similar load	Motels, Campgrounds	- Wastewater UAC - Application fee for new activities of change of activity or discharge conditions - Wastewater flow charge	- Water use = 1,000m³/yr - Wastewater flow charge = (1000-366) x 0.8 x \$1.65 1.97 = \$836.88 862.24
3	Equivalent to a domestic demand for water use but with a higher load concentration	Hairdresser, takeaways, restaurant, bars, schools	- Wastewater UAC - Application fee for new activities of change of activity or discharge conditions - Wastewater flow charge - Inspection fee - Annual consent maintenance fee	- Water use = 650m³/yr - Wastewater flow charge = (650-366) x 0.8 x \$1.65 1.97 = \$374.88 386.24 - Inspection fee = \$290.00 300.00 - Annual account maintenance fee = \$145.00 150.00 - Total Annual Charge = \$809.88 836.24
4	Higher water use and increased load	Factories, Truck stops	- Wastewater UAC - Application fee for new activities of change of activity or discharge conditions - Wastewater flow charge - Inspection fee - Annual consent maintenance fee	- Water use = 6,000m³/yr - Wastewater flow charge = (6000-366) x 0.8 x \$1.65 1.97 = \$7,436.88 7,662.24 - Inspection fee = \$580.00 600.00 - Annual account maintenance fee = \$145.00 150.00 - Total Annual Charge = \$8,161.88 8,412.24

The examples above are dependent on the activity and on the number of inspections required per year. The costs for sampling and flow monitoring are not included in the charges above as these are site specific. Any costs incurred for sampling or flow monitoring will be passed onto the commercial business.

Site inspection – actual cost	155.00 160.00 per hour

34. WATER SUPPLY (RURAL)

Financial Contribution	(See formula below)
Administration Charge – Application Fee, non-refundable	260.00 270.00
Rural Water Scheme Modelling (Deposit)*	620.00 640.00

* Please note that \$~~600~~ 640 deposit is required for work to get underway – Actual Charge will be confirmed with applicant before proceeding, and the difference will be refunded if applicable.

Financial Contribution for new consumers and additional over-design supplies, to apply where a property is not connected to the scheme ~~where water supply is available and has a design capacity~~

~~allocated to it, but no corresponding financial contribution has been paid. The contribution to be levied is to be for no less than the design capacity allocated to the property,~~

The contribution is based on number of units supplied, or if a property that has previously paid a financial contribution and has been given a corresponding allocation now seeks an increased supply in excess of that allocation. Provided it is possible to supply the additional water, the contribution is to be levied on each unit approved above the allocation.

~~The base financial contribution shall be calculated by multiplying the Property Area by the Scheme Factor except where otherwise indicated (see below). Residential/lifestyle properties may attract an increased charge. The minimum charge shall be for a 2-unit supply.~~ Financial Contributions levied will be in addition to any cost of additional capital works required to make the connection or provide the supply. Payment of the financial contribution is required prior to the supply being made. In each case, the contribution and any entitlement created by it is to attach to the land.

In particular cases, financial contributions may be amended by resolution of the Rural Water Scheme Committee.

Notes:

All properties connecting to a public water main shall complete the application form.

All costs associated with laying and making the connection, reinstating surfaces etc. shall be the responsibility of the applicant. **Work must be completed by a council approved contractor.** This includes the costs associated with any required system upgrade.

Scheme	Scheme Factor \$		Cost/Unit \$
Balmoral One	35.36		605.00

Wangaloa	33.54	625.00 655.00
Waipahi		440.00 460.00

Scheme Factor = (((BV-OL) x 0.25) / SC) x 0.065 + GST

Where: BV = Book Value. OL = outstanding loans and SC = scheme capacity.

¹For properties less than 30 ha.

²For the Richardson and Clydevale-Pomahaka Schemes, the following contribution will respectively apply: The contribution shall be five times the current unit rate for the Richardson scheme and three times the current unit rate for the Clydevale-Pomahaka scheme per unit of additional supply.

34.1 Unauthorised Water Use

Under provisions of the CDC Water Supply Bylaw, unauthorised use of water on rural schemes will be charged for at the estimated maximum unauthorised usage rate multiplied by the annual scheme unit charge, multiplied by the estimated period in years of unauthorised use (minimum 1 year). Additional to the estimated charge for water used, an administration charge of ~~\$290~~ 310, plus the actual costs to remedy unauthorised fittings and of follow-up re-inspection, will also be payable by the offender.

Example: If a 2-unit restrictor is found drilled out to supply 18 units, typical charges will be:

16 (units stolen) x \$172.00 (scheme unit charge) + ~~\$260.00 (admin)~~ + GST + ~~\$290~~ 310 (admin) = ~~\$3,463.80~~ 3,474.80 + actual remedial and re- inspection costs.

34.2 Subdivision

The property owner at the time of subdivision shall be liable for all costs required to provide the minimum water allocation to each lot.

34.3 Out of District Water Rates

Charge per unit for the sale of water supplied to out of district customers, from the following Rural Water Schemes:

Glenkenich	516.10 720.00*
Moa Flat	344.70 524.00*

*This has been calculated on the basis of the proposed Rural Water Scheme Assistance Capping model of 20%. Please see Annual Plan 2026/27 Consultation Document for further information.

34.4 Water Pipe Location

If a pipe location request is over and above providing general location information off council GIS for private reasons, and a contractor is required to pothole, dig or attend site to locate a pipe for any reason, actual costs of this work will be passed on including labour, transport, corridor access requests, traffic management plan and plant.

35. WATER SUPPLY (URBAN)

35.1 Urban Water Connection Fees

Financial Contribution	(See formula below)
Administration Charge – Application Fee, non-refundable	260.00 270.00
Engineering and Installation Costs (plant, labour, materials)	Actual Cost
Basic Development Engineering Inspection Fee	205.00 210.00

For a **new single connection inside** the scheme area, where the property has paid a previous financial contribution, or has been paying a half rate charge for more than the five previous years, the Financial Contribution is not required but the other costs shown are payable. Where the property has been paying a half rate charge for less than the five previous years, the Financial Contribution shown shall be reduced pro-rata, i.e. discounted 20% per year of half rate payment.

The Financial Contribution and other costs shown are payable for **new connections outside** the Scheme area, and **additional connections** inside the Scheme area, where no previous financial contribution or half rate charge has been paid. Where intensification occurs, each self-contained habitable unit is deemed to be a separate connection for fees and rating purposes.

For commercial premises (including residential premises converting to commercial) and for extraordinary connections (outside the Scheme area), a metered connection will be installed, for which the applicant shall be charged Actual Cost additional to all other relevant fees and charges.

The Basic Development Engineering Inspection Fee is for inspections outside of the property boundary undertaken by ~~Service Delivery Staff~~ **council staff or contractors** that are not covered under a building consent. The inspection can cover both sewerage and water supply inspections and is for developments up to three additional lots per inspection. Large developments will be charged on a time basis at the consent monitoring staff hourly rate.

Notes:

All properties connecting to a public water main shall complete the application form.

All costs associated with laying and making the connection, reinstating surfaces etc shall be the responsibility of the applicant. **Work must be completed by a council approved contractor.** This includes the costs associated with any required system upgrade.

Formula for FC = $\frac{(BV-OL) \times 0.6 \times 2}{(NC \times 2) + NN} + GST$

BV = Book Value

NN = Number Not Connected

OL = Outstanding Loans

FC = Financial Contribution

NC = Number Connected

35.2 Metered Water Connection Charges

Water used below 366 m ³ /year	(incorporated in annual water rate)
Water used over 366 m ³ /year	1.94 4.33*/m ³
Water used Commercial/industry penalty – in excess of agreed maximum	3.90 8.66**/m ³
Water meter reading fee – on demand	52.00 54.00
Annual admin fee (bulk water carriers only)	335.00 345.00

* This is calculated using the urban water rate (GST Inclusive) 1,585.61/366

** This is double the Water used over 366 m³/year charge

Metered water charges will apply as per section 25 of the Clutha District Council Water Supply Bylaw as above for all metered commercial and residential connections and will be charged once the base allocation (usually 366 cubic metres per annum) has been used.

35.3 Water Pipe Location

If a pipe location request is over and above providing general locates off council GIS for private reasons, and a contractor is required to pothole, dig or attend site to locate a pipe for any reason, actual costs of this work will be passed on including – labour, transport, CAR, TMP and plant.
